DALI4US
DATA LITERACY FOR UPPER PRIMARY SCHOOLS

Co-funded by the Erasmus+ Programme of the European Union

Clausen, 22 September 2026

Subject: Invitation for the conference "Young Minds, Real Data: Empowering Schools for an AI-Driven World'

Dear Madam, Sir,

We are delighted to invite you to participate in the upcoming conference 'Young Minds, Real Data: Empowering Schools for an AI-Driven World', held on 11 and 12 November 2026 as part of the Erasmus+ DALI4US project, at Hôtel Parc Belle-Vue, Luxembourg.

DALI4US (Data Literacy for Upper Primary Schools) is an Erasmus+ funded project which aims to equip primary school teachers and pupils with essential data literacy skills, through the OrangeEDU platform and carefully selected teaching materials. The project is led by SCRIPT (Service de Coordination de la Recherche et de l'Innovation pédagogiques et technologiques), a department of the Luxembourg Ministry of Education, in collaboration with partners such as the University of Ljubljana (Slovenia), H2 Learning (Ireland), the Slovenian Ministry of Education, the Oide Teacher Support Service (Ireland) and the Luxembourg National Education Training Institute (IFEN).

The project aims to develop an evidence-based data literacy framework for upper primary education, enabling pupils to engage with data critically whilst providing teachers with the practical tools and training needed to teach it with confidence.

As well as marking the conclusion of the DALI4US project, this event is also intended to be a broader conference on data literacy in education, open to a wider audience and community interested in this topic.

The conference brings together policy-makers, researchers, teachers and external partners from across Europe to discuss data literacy and artificial intelligence in education. It is structured around two thematic strands: 'European Vision, Policy and Perspectives' and 'Practice, Participation and Innovation'.

Meeting agenda

11.11.2026 – Vision, Policy & European Perspectives

1 pm-1.30 pm	Official Opening
1.30-2.15 pm	Opening Keynote – Big picture about Data (Keynote speaker: Katharina Schüller, one of the leading experts in data science, artificial intelligence and statistics)
2.15 pm-3 pm	Panel session – European Perspectives: short inputs from different countries about Data&AI Literacy/ Bias, Ethics, Educational Data, Learning Analytics … (Luxembourg, Ireland, Slovenia, Germany)
3.30 pm-5 pm	DALI4US in practice: Description of project, Framework, Activities, teacher training & learning path, OrangeEdu, added value for teachers, goals of project
5 pm-6 pm	Project & Classroom Showcase with walking dinner: Posters showcasing pedagogical activities of DALI4US project of the 3 countries
